FRANCE TO NEGOTIATE WITH RAIL STRIKERS

Willing to Arbitrate Question of Eventual Nationalization If Men Return.

PARIS, May 7 .- The government is willing to enter into negotiations with the railroad strikers on the basis of their demands for centralization of the railways, but insists that the strike order first be recalled before any conference can begin. This is the official attitude on the French strike situation as outlined today by government officials.

The minister of public works said that reorganization of the railroads will soon be necessary for financial reasons, because the roads are in the hands of their oestensible owners for

a certain period anyway.

It is generally admitted that the government's policy is eventually to nationalize the roads, but the government is decided to combat energetically any idea of "soviet control" by the workers.

In any case, it was officially stated today, the government will not treat with the strikers until they return

England Blames Rye Whiskey From U. S. For Crime Wave; Bars It

LONDON, May 7 .- The Daily Express is authority for the statement that the British Government has prohibited the importing of American rye whiskey. This action has been taken, according to the Daily Express, in consequence of reports received from chief constables and magistrates of the great increase in

drunkenness and crimes of vio-lence, which it is affairmed, are directly traceable to rye whiskey. A consignment of 75,000 gallons, which recently arrived, is held on board the ship pending the decision of the Government with regard to its return to

CONGRESSMEN NEARLY AGREED ON BUDGET BILL

House and Senate conferees on the bill providing for a national budget system have agreed on all questions in dispute except the department in which the Budget Bureau should operate, according to an announce-

ment made to day. The Senate bill provides that the Budget Bureau should operate in the Treasury Department House provision placed the bureau in the office of the President. House conferees assert the House des'res the President rather than a Cabinet member to have a free hand in the "pruning" of appropriations.

And the Other Presidential Candidates Is Clearly Shown

In "The Digest's" Mammoth Poll Of 11,000,000 Voters

There are from fifty to sixty thousand votes being received daily in THE LITERARY DI-GEST'S great presidential poll of 11,000,000 voters. As the vote grows and all sections of the country begin to be represented, a number of editors comment on the really popular expression of opinion which these ballots represent. The Troy Record makes the interesting suggestion that by means of such polls "it may be possible for the people to shake themselves free from paid publicity and artificially stimulated candidacies and indicate the men they want to that class of representatives who really want to know." In trade and labor circles, in political clubs, in fact wherever men and women congregate throughout the country, THE LITERARY DIGEST poll is arousing the most intense interest, as is evidenced by our daily mail.

More than 700,000 votes are tabulated and shown in THE LITERARY DIGEST for May 8th. When it is remembered that eleven million voters, almost two-thirds of the vote cast in the last presidential election, are being canvassed some idea of the magnitude of the enterprise will be gained. Every ballot is mailed in an envelope, and delivered through the U. S. Post-office personally to the voter addrest. Return postage on the ballot is prepaid, and the voter has only to check or write the name of his or her party and the first and second choice for Presidential candidates. Thus every vote cast is absolutely a secret ballot.

If you are not following this unique poll through the pages of THE DIGEST weekly, begin to do so this week. Other important articles in this number of THE DIGEST are:
